# Daniel Branham

Software Engineer Intern at Delta Bravo  
Rock Hill, South Carolina

## Experience

### Delta Bravo

Software Engineer Intern  
October 2018 - Present  
Rock Hill, South Carolina

Joined a team of young and motivated professionals with the common goal of AI Acceleration. Learned valuable skills in modern programming practices which include:

- Golang API development
- Source control through Github
- Handlebars HTML with Ember JS backend
- Insight into managing and running a startup
- Python with Pandas library for Machine Learning

### University of North Carolina at Charlotte

Undergraduate Researcher  
May 2018 - July 2018 (3 months)  
Charlotte, North Carolina Area

Participated in a Research Experience for Undergraduates that involved research in Augmented Reality. Skills learned include:

- Developing in the Unity3D Engine
- C# Scripting
- Networking within Unity3D
- Augmented Reality through Vuforia SDK
- iOS development through Unity3D
- Research Methods
- Source Control through GitHub

### SCANA Corporation

Software Engineer / Infrastructure Analyst Intern  
May 2017 - August 2017 (4 months)  
Columbia, South Carolina Area

Participated in SCANA Corporation's summer internship program. Worked on the Cyber Security team to develop multiple programs for the team to use. Helped multiple teams make the transition to Skype for Business by holding a seminar to teach them about the different uses of the application. Participated in a 3-day hackathon that resulted in a new app being developed for SCANA's media team. Skills learned include:

- PowerShell scripting
- C# Development
- Github
- iOS and Android development
- The Ionic Framework

### iDavid Computer Repair

#### Computer Tech

May 2016 - August 2016 (4 months)

Columbia, South Carolina Area

Started as an intern before working to a full time, paid, position. Gained knowledge and experience in what it takes to run a small business daily. Skills learned include:

- Customer Service
- Computer Hardware and Software
- Common computer security practices

---
